

FULL HD 1080P HIGH DEFINITION REMOTE CONTROLLED SPY CAMERA & DVR IN LEATHER BELT BUCKLE

Here is a spy camera that you can wear on your person and film while standing up or sitting down depending on the angle of image. It is great when you need to capture images that are at waistline for example when you are standing in front of a desk or at someone's car. Ideal anywhere in almost any environment whether at home, work or play and no one would ever guess or suspect that you are wearing an actual spy camera + DVR. The tiny pinhole lens is well hidden into the buckle that no one can see without a very close inspection. The operating of spy camera is so easy with the remote control and features of motion detection mode and high resolution photo's. The buckle easily opens so you can access the hidden USB port and Micro SD card slot. This definitely has its advantages in certain situations and makes it possible to film where no other camera can without making it obvious. Remember you don't have to be wearing the belt and in the bedroom on a sideboard it would be unnoticed. With high definition quality camera and DVR capable of recording up to 3 hours of uninterrupted footage that is so loud and clear you will be impressed. Capable of storing 6 hours of video on a 16GB class 6 or 10 MicroSD card (not included). Simply charge up (2hrs) insert the SD card to be ready to secretly film. It can also be left in a room to record secretly and will activate when any object or person moves in view of the camera.

Perfect for personal investigations, secret surveillance, and other covert activities, this is a hidden camera that no one will ever expect and definitely not be on the lookout for. The belt is a smart and classy faux leather and metal design that will match any clothes you wear it with, this is a Hidden DVR straight from the pages of James Bond!.
