THIS DOES NOT REFLECT ON THEIR PERFORMANCE AND ONCE WORN NO-ONE WOULD KNOW ANYWAY. THEY ARE CHEAP, PRACTICAL AND DOES WHAT IT SAYS AND STILL A BEST SELLER. PLEASE LOOK AT OUR ENTIRE RANGE BELOW BEFORE CONSIDERING THE PURCHASE OF THIS MODEL. WITH NEW AND EXCITING STYLES AND MODELS ARRIVING!!!!

Here is a camera that you can wear on your head filming everything you see exactly as you see and hear it. These high definition spy glasses records good quality video images and sound. With rich natural colours and crisp clear audio you will not believe you've made the recording from a pair of glasses. There design make it possible for both male / female to wear and suit people with different faces of different races and age. These are a very universal pair of spy camera glasses that are easy to use with one touch of a secret button and you are recording quality video. The 5 mega pixels cmos camera provides sharp clear video on a 4GB-16GB (not included).

No one would ever guess or suspect that these are an actual spy camera + dvr all in one. The tiny pinhole lens is so well hidden into the arm of the glasses when you know it is there you can still not see it. The operation button is hidden on the inside of arm and invisible to the naked eye. The side also opens so you can access the hidden USB port and Micro SD card slot for downloading and charging. This is definitely one of the most versatile easy to use hidden camera that you can easily wear on your person! With high definition quality camera and built in DVR capable of video recording over 1 hour of quality video on a single charge.
